## Interdisciplinarni podiplomski študij varstva okolja (IPŠVO)

Po daljšem obdobju se je v študijskem letu 1997/98 na Univerzi v Ljubljani ponovno pričel Interdisciplinarni podiplomski študij varstva okolja. Študij sestoji iz skupnega obveznega dela osmih temeljnih predmetov varstva okolja (predmeti skupnih osnov), izmed katerih študentje izberejo štiri. Drugi del so tematski sklopi predmetov in seminarjev, ki jih izvajajo fakultete.

V študij je vključenih deset fakultet s svojimi programi tematskih sklopov, nekatere druge fakultete pa sodelujejo z izbirnimi predmeti. "Ponudba" obveznih ali izbirnih predmetov je kar 139 predmetov, kar omogoča veliko fleksibilnost, horizontalno in vertikalno povezanost ter prehodnost. Lahko rečemo, da je mogoče oblikovati s kreditnim sistemom idealen študijski program po potrebah, naklonjenostih in interesih vsakega kandidata.

Za poskus interdisciplinarnega ter timskega dela na praktičnih primerih so predvideni še trije interdisciplinarni seminarji, ki vključujejo tudi terensko delo, obiske institucij in ekskurzije.

Vse, ki bi jih študij zanimal, vabimo, da se oglasijo koordinatorju študija na naslov:

Prof. dr. **Andrej Pogačnik**  
Fakulteta za gradbeništvo in geodezijo  
Jamova 2 Ljubljana  
tel. (061) 125 06 87
